APPLY NOW

Introduction

For personal land near the river, if there is deposition of minerals the land owner has to apply at the DM's office for disposal of minerals. In this process the MO inspects the site. Upon inspection of the site if MO finds the site fit then they first invite an e-tender to ascertain the bid value.

On receipt of the same, the bid value is proposed to the Applicant to exercise the right of first refusal.

If the applicant applicant agrees he has to pay the bid amount, get the mining plan approved and Environment clearance before getting into Deed Execution.

If the land owner disagrees, the highest bidder can mine and dispose the obtained mineral after completing the specified process.
